I would further note that though I am opposed to permitting the RE. to construct a Railway through our parade ground & between our IS transport & Lancer lines I am not sure that the Govt of His Highness are bound on this matter If this railway is permitted it will be an additional reason for making the permanent route by the Idgar as already suggested - as that road crossings should not be arranged

Re opening of a road for the use of the Bairasandra ryots in Munireddipalyam

I inspected this locality with the Deputy Com-missioner on the morning of the 11th. Instant

The ryots of Bairasandra and Munireddipalya (in-cluding Sultanpallya) have a real and valid grievance. Their Mamul way was the track shewn as No.1 in the sketch received with the Deputy Commissioner's DO of the 4th. Instant. They were deprived of it on the construction of the Imperial Service Lancers' Lines a few years ago. They were next using cart track No.2 which likewise is now out of the question owing to its proximity to certain buildings attached to the Lines above referred to. Nos.4and5 were suggested as a substitute. They are less convenient and more distant than Nos.1 and 2. But even they are not avail-able since they form part of, and run right through, the 600 acres of land selected by the Deputy Commissioner for transfer to the British Military Deptt for the construction of lines for the Queen's own Sappers and Miners. There remains No 3 which is suitable in every way and with which the villagers concerned would be quite satisfied. But I understand that the lands through which it will pass viz Survey Nos 37, 38, 39, 40, 42, 43, 44, and 7, have recent-ly been marked off, and added on, to the area asked for by the British Military Deptt. Please see the correspondence ending with the Deputy Commissioner's letter No.681 dated the 1st Instant (in another file not before me). I have seen a copy of the sketch which was submitted to Government with that letter. The land selected in accordance with the original requisition is about 600 acres and is colored pink. while that subsequently marked and asked for is about 1000 acres and is enclosed by red ink lines. The grant of the former will in no way interfere with the ~~assessment~~ assignment of No 3 in favor of the villagers, while the grant of the

the latter would make such an assignment an impossibility, to say nothing of the very serious inconvenience to which the ryots of several villages would in various other ways be thereby put. If the water course is decided upon as the eastern boundary, the solution of the difficulty becomes very simple. Otherwise, the grievance so reasonably com-plained of must unfortunately remain unremedied.

Petitioners — Raiyats of Kaval Bha

Subject — Way for their carts &
through Municipality
Sowar Lines).

Petitioners, in their Petn dated 29
1903, say that their manual way to
the city lies through Munnireddipalya
that the Military authorities prevent
them from using it about 15 or 20 day
prior to that date and that they hav
in consequence been put to great
inconvenience. They pray that
orders may be issued not to prevent th
using the way, or that a separate roa
for their convenience may be opened
from the western side of the present
Sowar Lines where houses for boiling
grain are situate.

The Petition was sent to the Asst
Assistant to the Government for disposal
He has forwarded the report of the
Commandant of the Imperial Service Lancers
to the effect that no carts of the adjoinin
villages and raiyats had been permitte
to pass through the Lines ever since th
arrival of the Regiment at the Lines
that in the interests of the Regimental
men and their families, carts of raiy
ots from adjoining villages cannot be
allowed under any circumstances
to pass through the Lines; that the
of Bhairasandra go to the city towards

plant a second hedge so as to screen effectually any passing carts from the Lines.

The Military Assistant was thereupon asked to give his opinion regarding the course suggested by the Deputy Commissioner. His reply is to the following effect:-

(1) that a cart track which used to go through the present Lines did exist from Sultanpalya to Munireddypalyam, but that he does not recommend the villagers being permitted any right of way between the Imperial Transport and Lancer Lines.

(2) that if they took their carts direct to the Hebbal road they would have to go only about half a mile longer than the direct route and there is no serious inconvenience to the raiyats as far as distance is concerned.

(3) that the new roads not being along a watershed they are much worse "going" than the old one, but that the villagers might be assisted to keep their roads in repairs.

(4) that as this is the first complaint though the Lines have been in existence five years, no action is in his opinion necessary.

(5) that the shortest route for the raiyats of Bhairasandra to the Cantonments is via the Eadga Road and not through the Sowar Lines at all.

The petition, though purporting to be addressed by the Ryots of Lancer Bhairasandra, is signed also by Ryots of

No 1718, of the 2d Instant, received with your No 1603 dated 3rd/5th Idem for report. I have the honor to bring to your kind notice that since the date of arrival of the Regiment, to the present New lines, No Carts of adjoining villages and ryots have been permitted to pass through the Lines.

There are two villages situated very near to the Lines, on the North Sultanpollium and the other Bhyrasandra; the former is some one furlong from the boundary and the latter near 3 furlongs. The ryots of Sultanpollium take their Carts to the City by passing through Bhyrasandra and Jivanpolli and that of the Bhyrasandra through Jivanpolli (which is situated on the East of the above named villages)

The objects of the ryots of Bhyrasandra in making the Complaint under reference is to utilise the Regimental Lines, instead of driving through the ordinary village tracks which are not generally in good order and some what round about to the City. If they are allowed to pass through the Lines it would be a short cut to the Carts as well as to the pedestreans, and will have a good road to wander about, at dark nights and during the rainy season.

The ryots referred to in the petition, cannot be allowed to pass through the lines; as the precautionary measures adopted for the prevention of Plague and also Commitments of theft in the lines would not be carried out, if the outsiders are allowed to pass through the lines whenever they like and use the Regimental road as a public through-fare, which is maintained at the Cost of the Military Department, for the exclusive use of the Regiment.

Offg. Secy. to the Govt. of H.H. the Maharaja, Gen. & Rev. Depts.

Sir,

With reference to your letter No. Pet/1054 dated the 17th instant I have the honor to state that as regards the ryots of Bhairsandra the shortest and the most direct route to the cantonments is via the 'Eadga" Road and not through the Sowar Lines at all.

The ryots of Sultan Palya are the only ryots who have any ground of complaint whatever

A cart track which used to go through the present Lines did exist from this village to Munireddypalyam. But if they took their carts direct to the Hebbal Road, they would not go much more than ½ a mile longer than the direct route and ½ a mile is no great distance I cannot conceive how the Deputy Commissioner makes the extra distance covered by the villagers 5 miles

I do not recommend the villagers being permitted any right of way between the Imperial Transport and Lancer Lines.

There is no serious inconvenience to the ryots as far as distance is concerned. The only trouble is that the new roads are not along a watershed and therefore much worse going than the old one. The villagers might be assisted to keep their roads in repairs.

But as this is the first complaint and the Lines have been in existence 5 years I think that no action is necessary.

Sir,

In reply to your official memo No. 922 dated 23rd January 1904, enclosing petition registered No. 052 of 29th October 1903 from the ryots of Kanal Byrasandra village, Bangalore complaining of the obstruction caused by the Military authorities to their using the manool right of way to the City and through the Lunar Lines. I have the honor to inform you that I inspected the spot this morning and found that the manool right of way lies through the Lunar Lines and I

I can quite understand the objection to the villagers using this but & the same time the villagers are entitled to another road of way as short as possible instead of using the other way, which extends the distance some 5 miles, for this there are two alternatives (1) one to acquire land through the adjacent Survey Nos and which would be very expensive as the majority of these lands are potatoe gardens and very valuable (2) for the Military authorities to grant a small strip of land of 6 yards wide running along the hedge which forms their boundary and keep their green bailing sheds, if this could be done the ryots would plant a second hedge on the other side of the track and which would effectually screen any passing carts from the lines

In

in the event of the 1st proposal being adopted I presume that the Military authorities would pay for the compensation for acquisition of land. At all events I am of opinion that the petition now presented is a genuine one and the route entitled to a right of way.

The enclosures to the official memo above referred to are re-transmitted for reference.

I have the honor to be
Sir,
Your most obedient servant,

Sir,

With reference to your docket No Pol/1163 dated 21st March 1904, calling for certain sketches shewing the alternative roads proposed to be opened between Kanal Byrasandra and Munireddipalya in lieu of the channel one, I have the honor to enclose a sketch shewing the several alternative routes proposed.

2. I inspected the several routes

on

on 4th June 1904 in company with the Assistant Commissioner in charge of the Bangalore Range and the Amildar and also the ryots concerned. If the road is opened between the Regimental transport line and the grain shed and the Imperial transport lines the inconvenience to the Lancers and the transport animals will be very great. Whereas by opening the road marked No 4 on the sketch and proposed by the Military Assistant Col: Jones, not only there will be no disturbance to the Lancers but also the distance will not be very much increased. The ryots have also agreed to this proposal

3 A statement of lands

that may hence be acquired in case route No 4 in the sketch is opened is also herewith submitted.
